Cell and Tissue Research

This journal was founded in 1924 as the *Zeitschrift für Zellen- und Gewebelehre*, from Vol. 2 (1925) it was published with the subtitle: Continuation of the Schultze-Waldayer-Hertwig Archiv für mikroskopische Anatomie. *Zeitschrift für Zellforschung und mikroskopische Anatomie* (Vols. 1–20) (1934) as: *Zeitschrift für wissenschaftliche Biologie* (Abteilung B) edited by R. Goldschmidt, W. von Möllendorff, H. Bauer, J. Seiler. Vols. 2–28 (1938) edited by R. Goldschmidt and W. von Möllendorff. Vols. 29–33 (1944) as: *Zeitschrift für Zellforschung und mikroskopische Anatomie*, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie, edited by W. von Möllendorff and J. Seiler, from Vol. 34 without the subtitle, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie. From Vol. 34 (1949) edited by W. Bargmann, J. Seiler; from Vol. 53 (1960) edited by W. Bargmann, B. Scharrer, J. Seiler; from Vol. 83 (1967) edited by W. Bargmann, D.S. Farner, A. Oksche, B. Scharrer, J. Seiler; from Vol. 125 (1972) edited by W. Bargmann, D.S. Farner, F. Knowles, A. Oksche, B. Scharrer. Beginning with Vol. 125 (1972) with the subtitle *Cell and Tissue Research*, beginning with Vol. 148 (1974) under the title *Cell and Tissue Research* and the subtitle Continuation of *Zeitschrift für Zellforschung und mikroskopische Anatomie* and beginning with Vol. 235 (1984) under the title *Cell and Tissue Research*. Beginning with Vol. 164 (1975), edited by W. Bargmann, D.S. Farner, B. Lofts, A. Oksche, B. Scharrer and L. Vollrath; As of Vol. 193 (1978), edited by D.S. Farner, B. Lofts, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath; from Vol. 227 (1981), edited by D.S. Farner, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath; from Vol. 228 (1983), edited by D.S. Farner, D.E. Kelly, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath. Beginning with Vol. 235 (1984), title changed to *Cell and Tissue Research* (no subtitle). As of Vol. 251 (1988), edited by H. Altner, D.S. Farner, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer, N.J. Strausfeld and L. Vollrath. Beginning with Vol. 252/3 (1988), M.J. Cavey became one of the editors. From Vol. 254/1 (1988), edited by H. Altner, M.J. Cavey, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer, N.J. Strausfeld and L. Vollrath.

Published: Vols. 1–33 (1924–1947) Julius Springer, Berlin, Vols. 34–35 (1948–1950) Springer, Wien, from Vol. 36 (1951) Springer, Berlin, Heidelberg.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US \$0.20 per page per copy, plus a basic fee of US \$2.00 per article. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0302-766X, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of Volume 268

- Abran D, Dickson DH: Biogenesis of myeloid bodies in regenerating newt (*Notophthalmus viridescens*) retinal pigment epithelium 531–538
- Alcorn D → Berka JLA
- Andersson T: Subcellular fractionation of rainbow trout gonads with emphasis on microsomal enzymes involved in steroid metabolism 479–489
- Ashida M → Ochiai M
- Barer G → Montuenga LM
- Baumann O: Structural interactions of actin filaments and endoplasmic reticulum in honeybee photoreceptor cells 71–79
- Bennekum AM van → Gijbels MJJ
- Berg TK van den → Oostveen DC van
- Berka JLA, Alcorn D, Ryan GB, Skinner SL: Renin processing studied by immunogold localization of prorenin and renin in granular juxtaglomerular cells in mice treated with enalapril 141–148
- Beuthe W → Rune GM
- Bird MC, Garside D, Jones HB: Multinucleated giant cells in primary cultures derived from canine bone marrow – evidence for formation of putative osteoclasts 17–30
- Boer HH, Montagne-Wajer C, Minnen J van, Ramkema M, Boer P de: Functional morphology of the neuroendocrine sodium influx-stimulating peptide system of the pond snail, *Lymnaea stagnalis*, studied by in situ hybridization and immunocytochemistry 559–566
- Boer P de → Boer HH
- Breidbach O → Wegerhoff R
- Brown KA → Perry ME
- Brunner M, Schraner EM, Wild P: Cellular changes in rat parathyroids provoked by progesterone and testosterone 283–286
- Buijs RM → Spörhase-Eichmann U
- Burnstock G → Mione MC
- Cavanagh JFR → Mione MC
- Chiarini-Garcia H, Machado CRS: Mast cell types in the lymph nodes of the opossum *Didelphis albiventris* (Marsupialia, Didelphidae) 571–574
- Chiba A, Honma Y: Distribution of neuropeptide Y-like immunoreactivity in the brain and hypophysis of the cloudy dogfish, *Scyliorhinus torazame* 453–461
- Colbatzky F → Vollmar AM
- Collie MA → Cronshaw J
- Concei → Chiarini-Garcia H
- Corio M, Thibault J, Peute J: Distribution of catecholaminergic and serotonergic systems in forebrain and midbrain of the newt, *Triturus alpestris* (Urodela) 377–387
- Cronshaw J, Reese BK, Collie MA, Holmes WN: Cytoskeletal changes accompanying ACTH-induced steroidogenesis in cultured embryonic adrenal gland cells from the Pekin duck 157–165
- Croy BA → Kiso Y
- Cruce WLR → Stuesse SL
- Damoiseaux JGMC → Oostveen DC van
- De Loof A → Paemen L
- Dickson DH → Abran D
- Diederer JHB, Peppelenbosch MP, Vullings HGB: Ageing adipokinetic cells in *Locusta migratoria*: an ultrastructural morphometric study 117–121
- Dow KE, Riopelle RJ: Influence of N-linked oligosaccharides on the processing and neurite-promoting activity of proteoglycans released by neurons in vitro 553–558
- Downie I, Gardiner DS, Downie TT, Gibson IW, Kenyon C, More IAR, Lindop GBM: Non-granulated peripolar cells exist in the rat glomerulus 567–570
- Downie TT → Downie I
- Ebbesson LOE, Holmqvist B, Östholm T, Ekström P: Transient serotonin-immunoreactive neurons coincide with a critical period of neural development in coho salmon (*Oncorhynchus kisutch*) 389–392
- Ebinger P, Rehkämper G, Schröder H: Forebrain specialization and the olfactory system inanseriform birds. An architectonic and tracing study 81–90
- Egloff M → Segretain D
- Ekström P → Ebbesson LOE
- Etayo JC → Prado MA
- Ferguson JE, Schor AM, Howell A, Ferguson MWJ: Changes in the extracellular matrix of the normal human breast during the menstrual cycle 167–177
- Ferguson MWJ → Ferguson JE
- Fibla J → Visa N
- Firth JA → Leach L
- Forssmann WG → Reinecke M
- Fujino H → Tagami M
- Fukiishi Y, Morris-Kay GM: Migration of cranial neural crest cells to the pharyngeal arches and heart in rat embryos 1–8
- Gaer J → Montuenga LM
- Garbelli R → Vitellaro-Zuccarello L
- Gardiner DS → Downie I
- Garside D → Bird MC
- Gaudecker B von → Perry ME
- Gérard N → Segretain D
- Gerstberger R → Müller AR
- Gibson IW → Downie I
- Gijbels MJJ, Ham F van der, Bennekum AM van, Hendriks HFJ, Roholl PJM: Alterations in cytokeratin expression precede histological changes in epithelia of vitamin A-deficient rats 197–203
- Golz R, Thurm U: Monoclonal antibodies against surface components of the mechano-and chemosensitive cnidocil complex of *Hydra vulgaris* 327–333
- González-Duarte R → Visa N
- Goss GG, Laurent P, Perry SF: Evidence for a morphological component in acid-base regulation during environmental hypercapnia in the brown bullhead (*Ictalurus nebulosus*) 539–552
- Hallberg E → Johansson KUI
- Ham F van der → Gijbels MJJ
- Hancke E → Hörsch D
- Hasegawa S → Kaneko T
- Hendriks HFJ → Gijbels MJJ
- Heym C → Reinecke M
- Hirakawa Y → Wasano K
- Hirano T → Kaneko T
- Hörner M → Spörhase-Eichmann U
- Hörsch D, Weihe E, Müller S, Hancke E: Distribution and coexistence of chromogranin A-, serotonin- and pancreastatin-like immunoreactivity in endocrine-like cells of the human anal canal 109–116
- Holmes WN → Cronshaw J
- Holmqvist B → Ebbesson LOE
- Honma Y → Chiba A
- Howell A → Ferguson JE
- Hutz RJ → Kitzman PH
- Inayama Y → Ito T
- Ito T, Kitamura H, Inayama Y, Nozawa A, Kanisawa M: Uptake and intracellular transport of cationic ferritin in the bronchiolar and alveolar epithelia of the rat 335–340
- Jégou B → Segretain D
- Johansson KUI, Hallberg E: Male-specific structures in the olfactory system of mysids (Mysidacea; Crustacea) 359–368
- Jones HB → Bird MC
- Kadoya Y, Yamashina S: Ultrastructure of the basement membrane and its precursor in developing rat submandibular gland as shown by alcian blue staining 233–238
- Kaneko T, Hasegawa S, Hirano T: Embryonic origin and development of the corpuscles of Stannius in chum salmon (*Oncorhynchus keta*) 65–70
- Kanisawa M → Ito T
- Kenyon C → Downie I
- Kerr JB, Maddocks S, Sharpe RM: Testosterone and FSH have independent, synergistic and stage-dependent effects upon spermatogenesis in the rat testis 179–189
- Khan HR, Saleuddin ASM: Neurosecretion of the mediodorsal cells of the central nervous system of the snail *Helisoma duryi* 131–139
- Kirkpatrick KA → Mione MC
